

Dear FDA,

*\* Do not sell, trade, or give my name to any one or anything.*  
I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket # 00P-1211/CPI, specifically:

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

**GE Food Moratorium**

**Little Marais, MN 55614**

Additional Personal Comments:

*If Europe can do it, so can we. We're as important as they are. I object to not knowing if I'm consuming Frankenfoods.*
